INTRODUCTION

VMRC is a community-based, private nonprofit corporation that is funded by the State of California to serve people with developmental disabilities as required by the Lanterman Developmental Disabilities Act. The Lanterman Act is part of California law that sets forth the rights and responsibilities of persons with developmental disabilities. Valley Mountain is one of 21 Regional Centers throughout California serving individuals with developmental disabilities and their families. VMRC provides services to residence within San Joaquin, Stanislaus, Amador, Calaveras and Tuolumne Counties.

DESCRIPTION of PROJECT

VMRC has a need for a licensed Enhanced Behavioral Supports Home (EBSH) for children that will serve up to four (4) male and/or females ages 10 to 17 years old with intellectual disabilities that may also have a diagnosis of autism and have extensive behavioral, mental health and medical support needs.

The EBSH is a new model of service, certified by the State of California Department of Developmental Services and licensed by the State of California Department of Social Services as

a residential facility or group home. (Government code 11346.2 (b) and California Code of Regulations Title 17, Division 2, Chapter, 3 Subchapter 24). The home provides 24-hour non-medical care to individuals with developmental disabilities who require enhanced behavioral supports, staffing, and supervision in a homelike setting. The enhanced behavioral services and supports provided to address individuals' challenging behaviors include additional staffing supervision, facilities characteristics and other services and supports which are beyond what is typically available in other community-based residential facilities or group homes to serve individuals in a community setting rather than an institutional setting. (WIC 4684.80(a) and (b). Behavioral challenges that may be present are, but not limited to, elopement; verbal and severe physical aggression; sexualized language and gestures; property destruction; self-injurious behavior including head banging, scratching, and picking; restiveness to routines and directions that result in aggression toward staff and peers.

The home will provide services to four (4) male and/or female children with developmental disabilities who co-occurring conditions. The age range of the children will be between the ages of 10-17 years old. Each child will be required to have their own bedroom. The program plan requires that each child is provided a comprehensive behavior support plan that is person-centered, trauma-informed and embraces a positive supports approach. The EBSH provider and support professionals will support individuals in overcoming the barriers that interfere with their relationships among family and friends and with their successful integration as respected and contributing members of the community. These enhanced supports provide the intensive services needed to support individuals during behavioral crises so the need for acute crisis services or admission to acute psychiatric facilities or institutions for mental disease is minimized or prevented. The services provided will need to include but are not limited to, comprehensive person centered services, psychiatry, intensive behavior management, and medical/nursing care. The children will likely need supports in some of the following areas: emotional self-regulation; anger management; development of coping skills; establishing healthy relationships with staff, family, and peers; medication management; accessing health care professionals; development of leisure interests; accessing community-based leisure/recreation services and activities; opportunities to have daily physical activity; engaging in educational services on or off site; developing independence with activities of daily living.

The services must be provided in a home like setting and should provide sufficient space to comfortably accommodate enhanced staffing to support the children while maintaining a calm therapeutic environment. Space for children to enjoy physical activity both indoors and outdoors is a requirement. The location of the home will be in Stanislaus County. The final location is subject to approval by VMRC.

Consistent with the EBSH model, the home will be owned and renovated by a Housing Development Organization (HDO) or a Non-Profit Housing Organization (NPO) that will work collaboratively with the service provider and regional center to identify, develop and renovate the property to meet the needs of individuals identified to live in the home. The home acquisition and renovation is being funded under a separate grant process. The successful service provider applicant for the CPP grant will lease the property back from the HDO/NPO. The HDO/NPO and the service provider will negotiate through the contract process the responsibility for ongoing maintenance of the property and home. The startup funds identified in this RFP are solely for the use of the service provider for the establishment of a licensed home, including, licensing fees, furnishings, supplies, personnel recruitment, staff training, planning, and meetings.

Services provided in the EBSH will meet all requirements per California Code of Regulations, Title 17, sections 59050 through 59072 which can be found in their entirety at <http://www.dds.ca.gov/proposedregs/enhancedBehavioral/title17EBSHregs.pdf>.

All proposals must address certain basic points including the following:

- Compliance with State of California Code of Regulations, Title 17, sections 59050 through 69072 that apply to operating Enhanced Behavior Support Homes.
- Compliance with State of California Title 22 Community Care Licensing (CCL) regulations prior to vendorization by VMRC.
- Qualifications of Administrator ensuring a minimum of 2 years prior experience with individuals with developmental disabilities in a licensed residential facility for persons with developmental disabilities. Must be a registered behavioral technician (RBT) or a licensed psychiatric technician (LPT) or a qualified behavior modification professional. Administrator and licensee must both possess a current Administrator Certificate.
- Qualifications and training of Lead Direct Support Professional and Direct Support Professionals and the Qualified Behavior Modification Professional (QBMP).
- Identification of an array of consultants and how they will be utilized to support the individualized program plan for each child. Consultants may include but are not limited to, psychiatrist, physician, nurse, Board Certified Behavior Analyst, Nutritionist, Recreation Therapist, Occupational Therapist, Speech Therapist, and Physical Therapist.
- Strategies and approaches in developing and adjusting the individual program plan, including the behavior plan to ensure optimal results in reducing target behaviors and replacing them with socially acceptable behaviors.
