D. Public Comment

1. Mary Duncan-VMRC Staff and SEIU 1021 President and SEIU local secretary. Shared concerns about the VMRC and SEIU contract expiring and not receiving additional budget information requested in August. Economic proposals were submitted to management and in doing research, VMRC starting SC is earning less than \$4-5 hourly. Shared that at the September committee budget meeting \$4 million was unspent in FY 22-23. For this budget cycle we were told that 1% COLA costs VMRC \$240,000. She reported to have heard a rumor that there is a hiring freeze and noted VMRC does not currently have a CFO or HR Director. We have budgeted positions, managers that have been hired for expansion teams with no staff. The priority does not seem to be for the people, actions speak louder than words.

2. Dena Hernandez – SCDD North Valley Hills Office

Shared about upcoming events. Discussion to eliminate subminimum wage, a law passed in California is working so individuals with disabilities can discuss subminimum wage. ARC of Amador and Calaveras are having a fundraiser at Harrah's, brought flyers. The Self-Determination Advisory Committee will be giving a report but brought flyers for the resource fair that will be held on April 28, 2025. On Saturday, 10/26/24 we will be having a brain health to beat stroke at the University of the Pacific.

3. Akbar Bibb- Vice President SEIU 1021

Is asking for a fair contract, reported why do we even have to ask for a fair contract. Let's listen to them at the table, fair contract for the labor we're doing.

4. Dora Contreras (ICC)

Shared frustration getting access to participate in board meeting. Went on the website and had to click on several links. Worried about other parents who are do not have technological skills or English reading ability. Working with several parents reported not being able to use recreational services. The reason is because they do not have the money upfront, sad part is their loved ones need services. Asked the Board to get an FMS for our regional centers as others have, parents do not have to be reimbursed or pay up front.

5. Vivian David-Nicolas

Reported that she is a family member of a self-advocate and is an independent facilitator for self-determination and chair of the local advisory committee. Reported experience barriers in families interested going in self-determination and families transitioning to their renewal year. She shared we had a client who submitted a spending plan change movement of funds, adding a vendor FMS requested it, it took over a month. A parent had to pay out of pocket and that could've been avoided if they had a timely response. Similarly, another client in year two that has gone 3 weeks without services. Theres a lot of delays, no feedback, hoping for positive change.

E. Calendar Consent Items

- 1. Finance Committee Meeting Minutes of September 11, 2024
- 2. Executive Committee Meeting Minutes of September 11, 2024
- 3. Consumer Services Committee Meeting Minutes of September 25, 2024

F. Presentation – Families United for Equity

Dominque Mellion, Executive Director, shared a brief presentation on what services they provide and their partnership with VMRC. Reported to provide services to African American and Latino populations. Shared about a 12-week program that trained family members, school district staff and some regional center case managers on becoming culturally competent in the IDD services system. There are huge gaps for services for African American and Latinos, the hope is to bridge the gap in marginalized communities. FUE started in 2023 and has serviced over 150 families, their program has helped increase screening rates, and advocacy in education. They are grassroots, staff go into neighborhoods in unsafe areas, a lot of targeted outreach in school districts and schools themselves. We offer developmental screenings, referrals for behavioral services. We are doing outreach every weekend.

Leinani reported that with this new partnership, it is an opportunity to share this resource with our service coordinators. Some families are new and need support along the way. Leinani also shared FUE is on the African American focus group statewide.

G. Presentation - Designated conservatorship policy

Jason is presenting a draft for BOD approval of VMRC's policy to mitigate conflicts of interest related to designated conservatorship. This policy was developed due to recent DDS directive that required all regional centers to develop a policy. It must be submitted to DDS that has been approved by the board. Jason explained the policy to the board. This is when DDS is the conservator to an individual and DDS then delegate duties to the regional center that is serving. Some duties are quarterly in-person, reports are submitted to DDS and making sure the clients right and preferences are represented in planning process. Duties cannot be completed by consumer's service coordinator, SC program manager or another SC on their team. VMRC will add a senior community services liaison, it is an existing position and class to the compliance office. This position will be under the compliance office and perform duties of the delegated conservatorship, as well as provide support to compliance officer and office. The policy draft presented is similar from other regional centers. Jason asked if there were any questions, none were asked.

Alicia asked for a motion to approve, Erria made a motion to approve, Kenneth seconded the motion. The draft passed unanimously.

1. Executive Director's Report

Leinani reported VMRC staff attended 3rd Annual American Indian Intellectual
and Developmental Disability Symposium hosted by Acorns to Oak Trees,
San Diego Regional Center, and Pala Band of Mission Indians at Pala
Reservation. There were tribal leaders, government officials and regional
center leaders from throughout the state. Leinani participated in a Cultural
Leader Panel. It was an amazing conversation with attendees and discussed
ways to connect in the future. Met California State Superintendent of Public

Instruction Tony Thurmond who provided important keynote that linked both his regional center roots as former SC at GGRC (Bay Area) and focused efforts on tribal leaders making sure tribal communities are part of all conversation in education and regional center services. There was a tribal listening session led by Victor Duran, Chief Deputy Director of California Dept of Rehabilitation for the Master Plan. He received meaningful input. VMRC was awarded 2024 Village award for supporting Native American people.

- October 16-17 attended ARCA Board Meeting in San Diego, with Alicia VMRC Board President who participated in conversation on transitional housing, special incident reporting and presentation by SDRC tribal liaison about implementing tribal engagement strategies in the community.
- October 29 thanked all board members who attended Tracy Open House, it
 was an amazing event with 175-200 in attendance. We had a ribbon cutting
 with Tracy service providers, self-advocates from all counties and staff were
 able to meet community members. We also welcomed Carla Castaneda,
 Chief Deputy at DDS and Mayor Nancy Young of Tracy. Lizzie will be posting
 photos in the VMRC Newsletter of photo collages of various outreach events
 in the coming days.
- November 18th DDS bi-annual audit will begin. Brenda, thankfully, with the Leadership team are helping in HR, fiscal, case management to ensure VMRC is in compliance with the contract. DDS will be here virtually 4-6 weeks.
- December 11th Multiple public comment opportunities. The first presentation will be on NCI National Core Indicators (Christine and George Lewis will lead the conversation), and VMRC End of Year Performance Contract Report.
 Jason Toepel, VMRC Compliance Officer, will provide board training regarding appeals, complaints, compliance and whistleblower policy.

2. Consumer Updates:

Tara reported a parent in Stanislaus County was diagnosed with a brain tumor, due to confidentiality reasons she is not sharing the name. Staff at VMRC are going to great lengths to support her. Tara shared sad news of a service coordinator who lost her husband. VMRC staff are trying to support her.

Christine reported Sac6 meeting held on November 1 at VMRC Modesto office. Victor Duran, CHief Deputy of Department of Rehabilitation and Nicole Patterson, Department of Developmental Services spoke with 140 self-advocates about the Master Plan, committees and priorities. It was nice to see Victor and Nicole go over each priority, get feedback and answer questions, and listen to concerns of self-advocates. An amazing event and very humbling to support Sac6.

- 3. **Consumer Services:** No report to share.
- 4. Personnel and union Update:

Leinani reported that the contract is in the ratification stage, union has 7 days to vote. Once ratified, more details will be shared. Voting begins November 19-22. She thanked Bruce and Tara, and union leaders for their support and help to come to an agreement. This is very positive news and it was a heavy lift in the last couple of weeks.

Tara thanked Lizzie for supporting last day of negotiations and Leinani who while presenting at an event, was getting information from across the state to make informed decisions.

Alicia gave condolences to the service coordinator on behalf of the board. She thanked Christine for the information from the master plan meeting as it is confusing. She was happy that the self-advocates who are affected were given feedback as it's important to the process. Leinani shared Dr. Steve has mentioned in our Finance meeting that there was interest of meeting earlier to make sure there is some alignment between meetings. Notes:

This report covers four months of the 2024/25 fiscal year. After four months of the 2024/25 fiscal year, 33.3% of the year has elapsed and 31.0% or \$140.2 million of the POS budget has been expended, while 39% or \$24.8 million of the Operations budget has been expended. Many Operations expenditures are paid at the start of the fiscal year such as annual license fees for software, ARCA dues and other similar expenses, thus causing the percent of operations expenditures to be higher than the percent of the year elapsed. Projections for POS expenditures for the fiscal year have not been calculated with the first projection due to DDS in January. CPP POS expenditures are \$27,812 over budget. This is due to some payments charged to an incorrect account and will be resolved next month.

Notes:

The contract status report provides information on the total amount of contract allocations the regional center has received from DDS, the expenditures and remaining balances for the current and two prior fiscal years. Additionally, the report compares the contract allocations between fiscal years in both dollars and percents. The large increase in contract allocations between 2023/24 and 2022/23 was primarily due to POS vendor rate changes in POS and additional staff funding to help meet caseload ratios in Operations. The decrease in CPP funding is largely due to the completion of the closure of all but one of the Developmental Centers.

Performance Report for Valley Mountain Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Valley Mountain Regional Center (VMRC) we served about 20,470 consumers. The charts on page two tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At VMRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well by:

- Reduced the number of individuals residing in developmental centers to 0.03% which is lower than the state average.
- Completed onsite HCBS assessments of 321 residential, day program and group employment vendors. VMRC achieved 100% compliance with the HCBS Final Settings Rule requirements.
- VMRC increased service access and eligibility for African American and Hispanic individuals.
- Increasing purchase of service for social and recreation for 2,313 individuals;

VMRC still needs to improve in:

- Completing timely independent audits;
- Increasing access to services for more diverse communities; and
- Supporting individuals with achieving their employment goals.

We hope this report helps you learn more about VMRC. If you have any questions or comments, please contact us. This report is a summary. To see the complete report, go to: https://www.vmrc.net/performance-contract-2/ or contact me at (209) 472-6510.
