

#### National Core Indicators (NCI) In-Person Survey

Public Meeting
December 11, 2024

#### National Core Indicators

The National Core Indicators (NCI) Survey gives individuals with intellectual/developmental disabilities (I/DD) and their families the opportunity to voluntarily and confidentially participate in surveys to share their experiences on access to and use of regional center and community services.

- Survey responses help to see how California is doing compared to other states.
- Survey responses help the regional centers see what they are doing well and what they can improve.
