and Possibilities

An Introduction to the Home and Community Based Services Final Settings Rule Residential Vendor Trainings

VMRC invites Residential Vendors, along with their staff and consultants, to join us for an informative session on current federal regulations. The Home and Community-Based Services Final Settings Rule is designed to enhance the quality of services for individuals with disabilities. This rule ensures that service providers offer individuals access to their communities, choice and autonomy over their lives. It also upholds essential individual rights, including privacy, dignity, respect, and freedom from coercion and restraint. We encourage you to attend and learn more about these civil rights and your role as service providers!
